App Development Assistant

Description

App Development Assistant

Responsibilities

1. Assist in the design, development, testing, and maintenance of mobile applications (iOS/Android).
2. Collaborate with developers, designers, and product managers to support project execution.
3. Conduct application testing, bug reporting, and help ensure app performance and stability.
4. Research and document new technologies, tools, and best practices in app development.
5. Provide daily technical and administrative support for the development team.

Qualifications

1. 1+years in Computer Science, Software Engineering, or related field or equivalent practical experience.
2. Basic knowledge of at least one mobile development framework (e.g., Flutter, React Native, Swift, Kotlin, or Java).
3. Understanding of mobile UI/UX principles and willingness to collaborate with designers.
4. Strong problem-solving skills, willingness to learn, and ability to adapt in a fast-paced environment.
5. Good communication skills, team-oriented, and able to follow project timelines.
6. Internship or project experience in app development is a plus.
